

Hello Everyone:

We would like to thank all teachers who attended our presentations. We covered all sites in seven school days. We had a turn- out of 65% of our members, who stayed for the entire meeting and completed our questionnaires. We got a lot of feedback from each site with comments and suggestions. Most feedback was positive as to the work we are doing, but we definitely have our critics. We felt that it was best to present the information in person, so that questions could be answered to the best of our ability.

Every site was different in their responses and their breakdowns. The Bargaining Team determined it was best to share results showing district wide totals. We feel that breaking down site totals could have a negative effect on staff morale.
